

CITY OF SPRINGFIELD
INTER-OFFICE MEMORANDUM

ATTENTION OF Memo to file

DATE August 20, 1979

DEPARTMENT Water Pollution Control

On Thursday (August 16, 1979) Harry Criswell, Gene Pabst and Steve Short met with Mr. Jerry Patton, Building Consultant for Springfield Metal Building Company to discuss the proposed building addition to Hill Brothers Plating at 1830 Nias. Mr. Patton was concerned about the pretreatment that would be required of Hill Brothers as stated in the Pretreatment regulation. We informed Mr. Patton that we would be enforcing what the Pretreatment regulation required as well as Chapter 30 of the Springfield City Code. We told Mr. Patton that we would inform Hill Brothers of new pretreatment regulations as they become available to us. Mr. Patton ~~stated~~ that he would probably be back in touch with us before they began to build their building.

SIGNED

Gene Pabst

Water Pollution Control Inspector III
